

**Emerging European Digital Health Companies Join
The 6th Annual Health 2.0 Europe Conference
Investment, Reimbursement, and The Health 2.0 Hospital**

SOURCE Barcelona, Spain - Health 2.0 announces new panels and innovative demos for the [6th Annual Health 2.0 Europe Conference](#) taking place **May 18-20** in Barcelona, Spain. This Spring, Health 2.0 Europe and its partners at Mobile World Capital will dive into the European investment landscape, the latest design strategies for entrepreneurs, international health care concerns, and showcase the tools emerging to solve the multitude of issues surrounding the digital health landscape.

Highlights include:

Health IT Investment & Funding: Leading innovators and investors pursue new funding partnerships during **Health 2.0's Digital Health Investment Forum - EC2VC**. Join 10 companies as they pitch rapid fire demos in a room with over 35 international digital health investors.

Reimbursement on the way for digital health?: German National Health System has been paving the path in Europe by reimbursing medical apps such as **Caterna** and **NeuroNation**. They will be joined on stage by **Peppermint Ventures** and **AXA Krankenversicherung AG** to talk about the future impact of this revolution on the European marketplace.

Connecting European Providers in New Ways: Leaders from **Sanofi**, **Szinapszis Group**, **BMJ Publishing Group**, **Doctors.Net.Uk**, **Creation Healthcare**, **digitalMedLab**, and [many others](#) will join to disrupt and streamline the channels for provider communication and collaboration.

¡Innovación de España!: Health 2.0 is welcoming the most exciting innovators bursting from Spain's startup hub. Experience s from local companies such as **Vademecum**, **UnoBrain**, **BestDoctors**, **Psious**, **NeuroDigital**, **MIRU**, **Apptimiza**, and **insightmedi**, and [many more](#).

Big Names Solving Big issues: Spanning the challenges emerging within pharma to national health, join notable industry leaders from **Bayer Healthcare** and **Biocat** as well as Jo Cubbon and Richard Jefferson, of the **NHS Trust** as they work together to drive better outcomes.

The Frontier of Digital Health: Explore the emerging role of drones in delivering acute care with **Drones for Good**, while live demos from **Psious** and **NeuroDigital** challenge and contribute to new forms of rehabilitation and therapy.

Registration is currently open and can be found on the [event website here](#). Register before the prices increase on **April 6th**. The discounted [rate for startups](#) is available upon pre-registration approval. Complimentary press passes can be requested through the conference [website](#).
